

Registration for Doctoral Work

Synopsis Template

1	Broad Area of the Study	Indicate the discipline under which your doctoral work will focus. eg., Polymer chemistry under chemistry, Finance under Commerce, Liquidity Management under Economics etc.
2	Problem or Issue Identified	Trace the issue/s or the problem identified for the study. This should be based on evidence/data available from literature/ observation. The issue can be presented in around 200 words. The problem statement should be highlighted in 2-3 sentences.
3	One Page Review of Literature	Trace the fundamental theories, concepts, models associated with your research issue, along with current studies available so far. Indicate how your work would be different.
4	Relevance of the study (in around 100 words)	How the study will be useful to different stakeholders, in terms of possible applications, societal benefits, emerging policies, systems, models etc.
5	Objectives of the Study	What the study attempts to accomplish. Give primary objectives and supportive secondary objectives, if any.
7	A brief description of the methodology (in around 200 words)	How will you carry out the study?
8	Suggested Title	The title can be decided after defending the synopsis at the Doctoral Committee meeting based on the presentation outcomes.
